Wheelchair Friendly Bath Transfer Bench

Model 3004 Wheelchair Transfer Bench

This new padded bath bench allows the wheelchair user to align the chair at an angle with the transfer bench. This eliminates the need for a transfer board or a risky hop over. The bridge section leg is recessed so the wheelchair can dock right against the bench without a gap.

The seat to floor height can be varied with optional raise kits. Available for left or right hand bathtubs.

Manufactured by Duramed Designs, Coquitlam, B.C. Available at:
